Comments on design 2.

Don't like the idea of football teams having to exit via the back of the building. Glass window area on top floor would not be used for football

Any other comments

- Both ideas seem to be planned to take the space of the youth pitch & training area.??
- Football changing rooms do not seem to have much improvement or enlargement
- Has the memorial bench by the bowls pitch been considered in both designs?
- Kitchen & hatch need to be on the end of the building overlooking the field. - for car boot
- Hatch needs to be accessible from outside - for car boot
- Storage needed for football for ride on lawnmower, 5 aside goals + other equipment.
